CITY SKYLINE

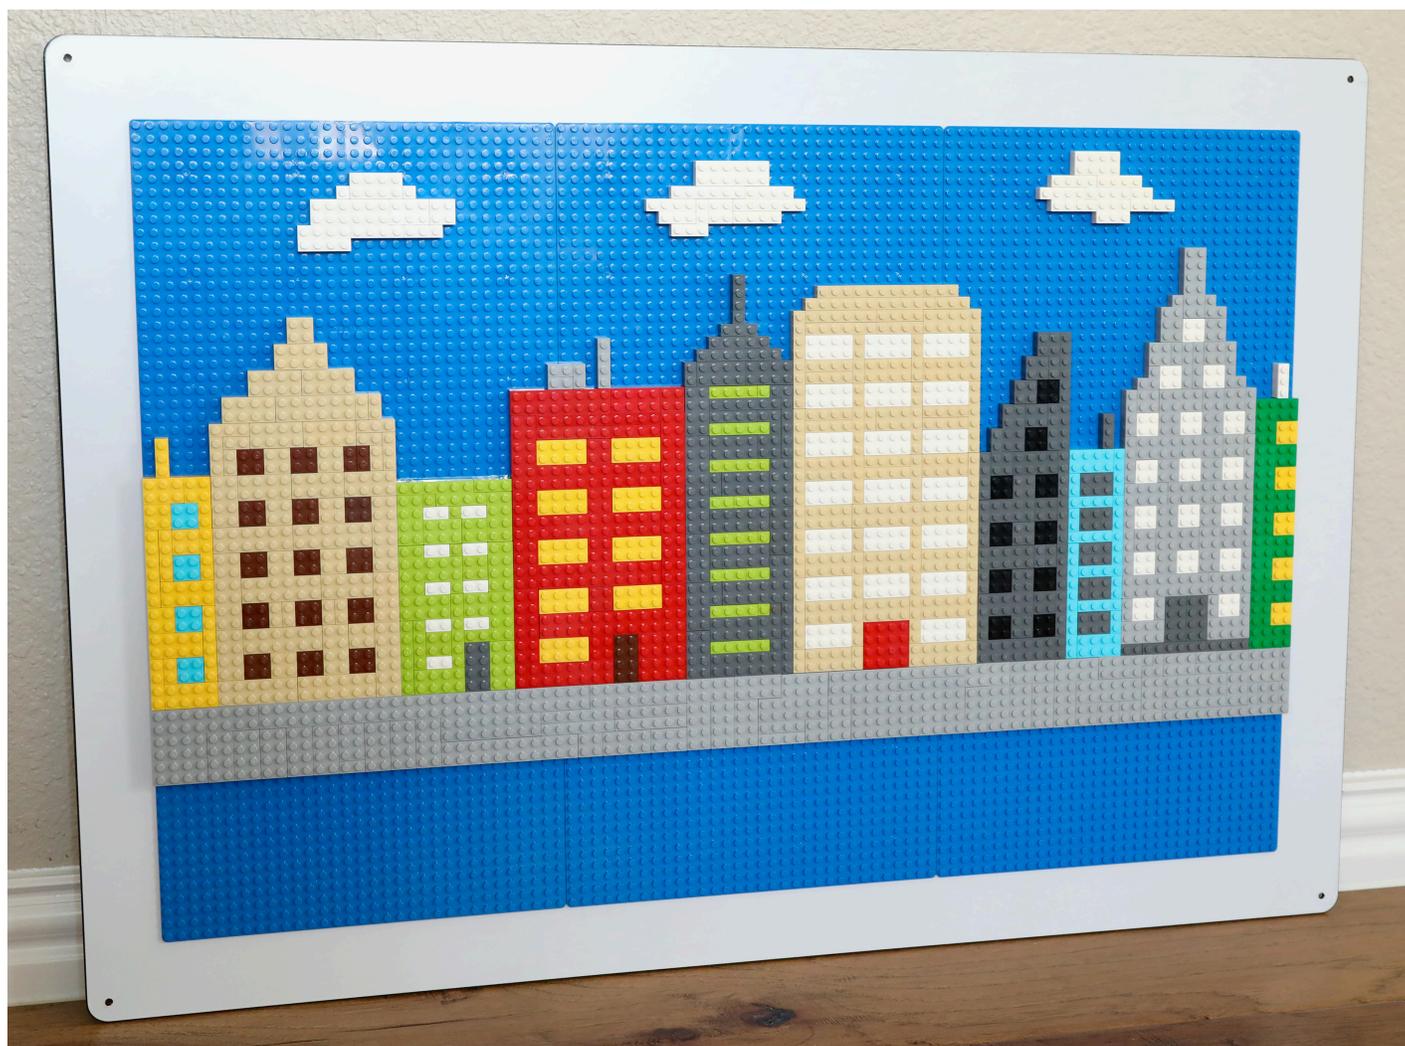

Create a city skyline with a row of tall buildings!

Building Tips:

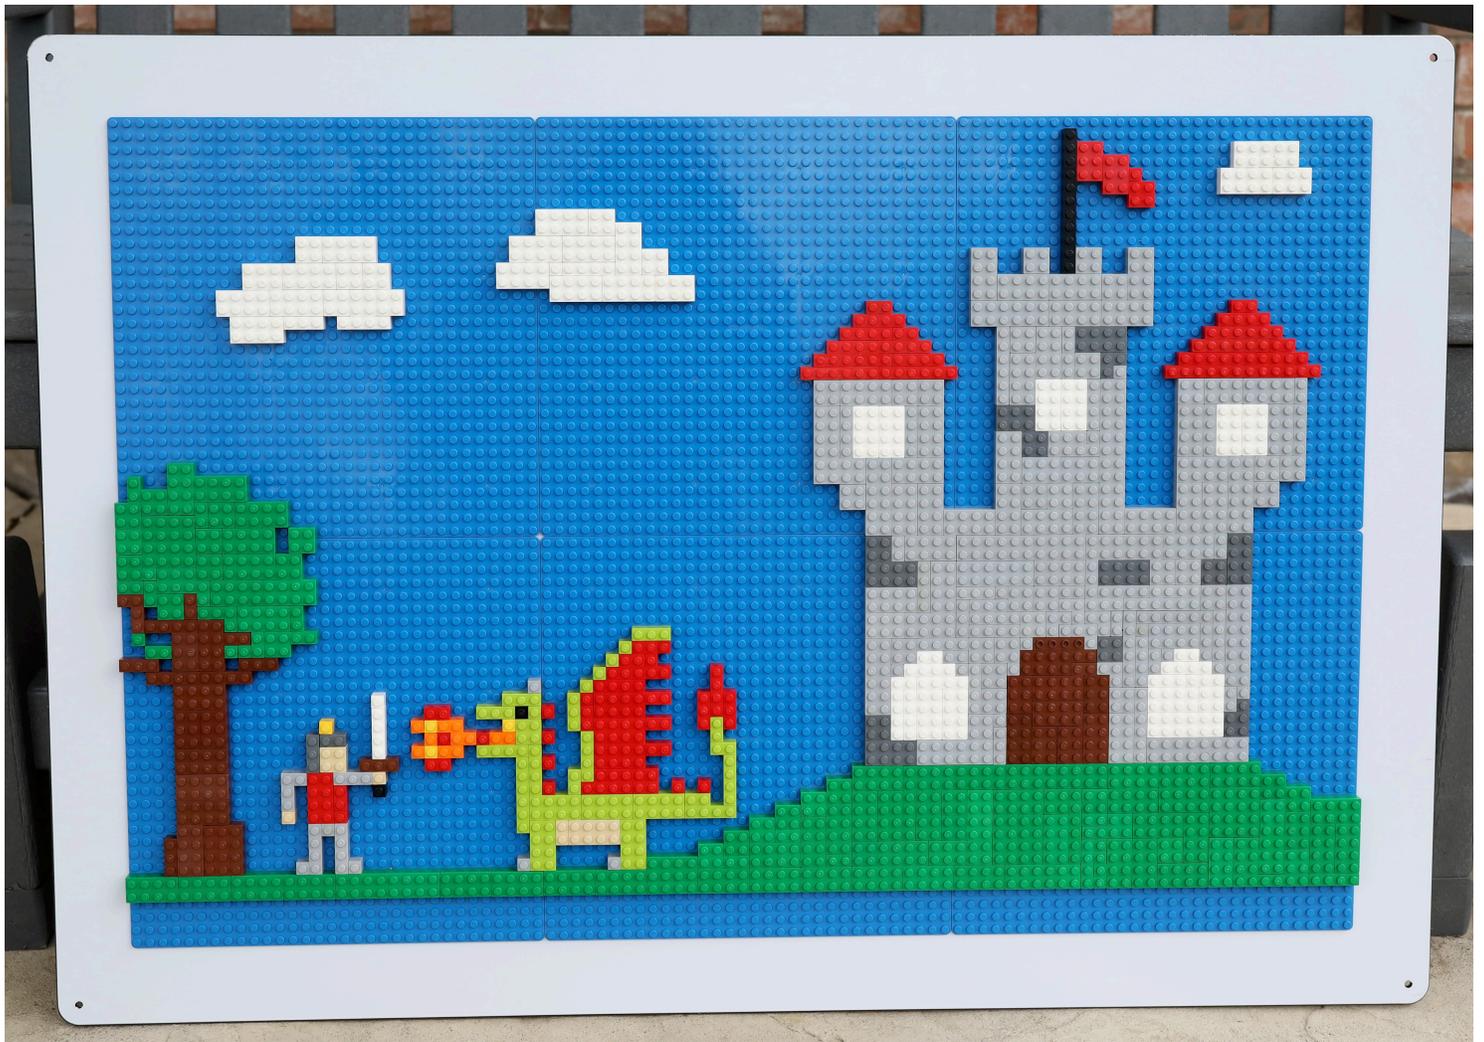

- Vary the heights of the buildings.
- Use a variety of colors for the buildings, but repeat each color in a second location in the design.
- White is not the only good window color! Try black, brown, gray, yellow, or lime green windows.

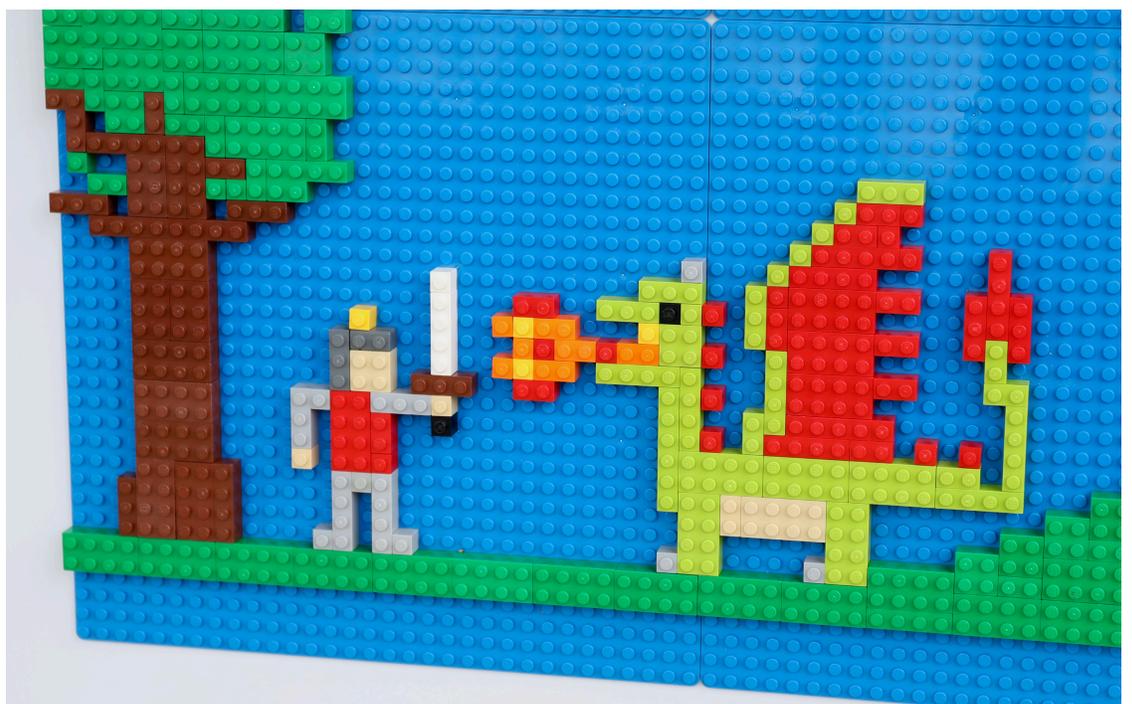

- Fun idea! Try building a superhero flying above the skyline!

Storybook Castle and Dragon

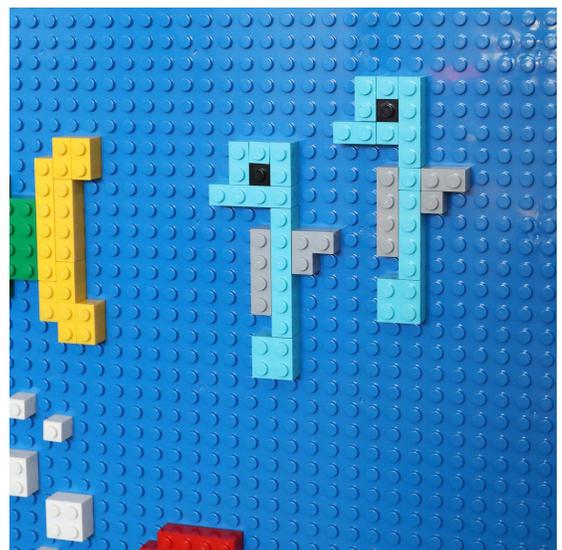

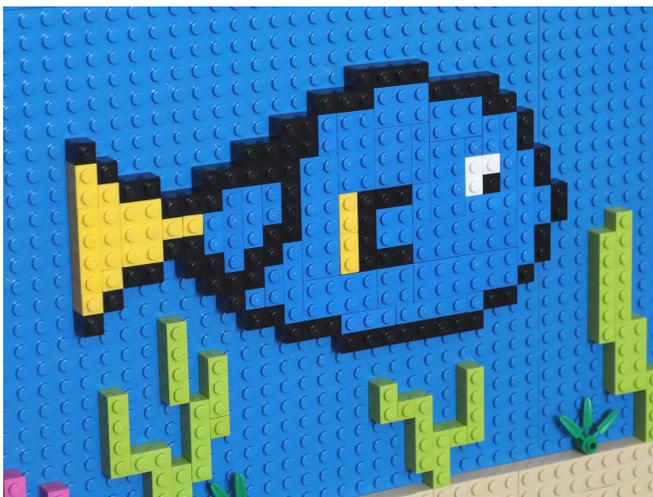

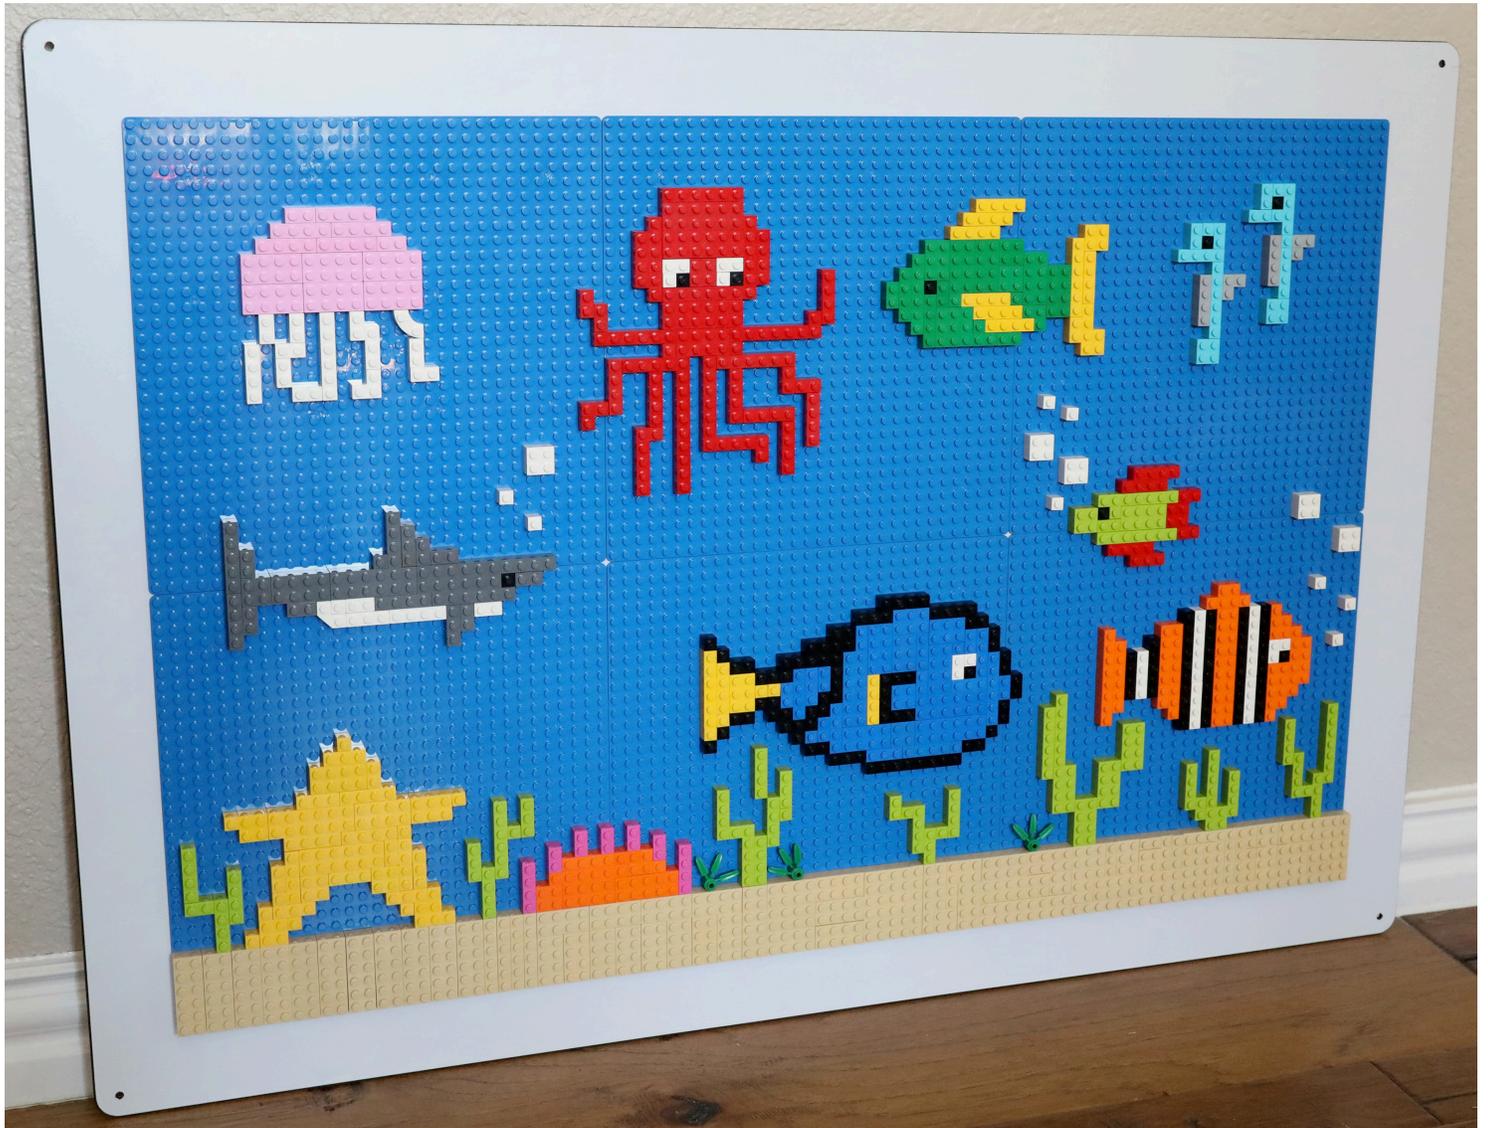

Design a castle with towers, and then build a fiery dragon! Make a knight with a helmet and armor, and then give him a sword for fighting the dragon. More ideas: try adding a princess or a moat around the castle!

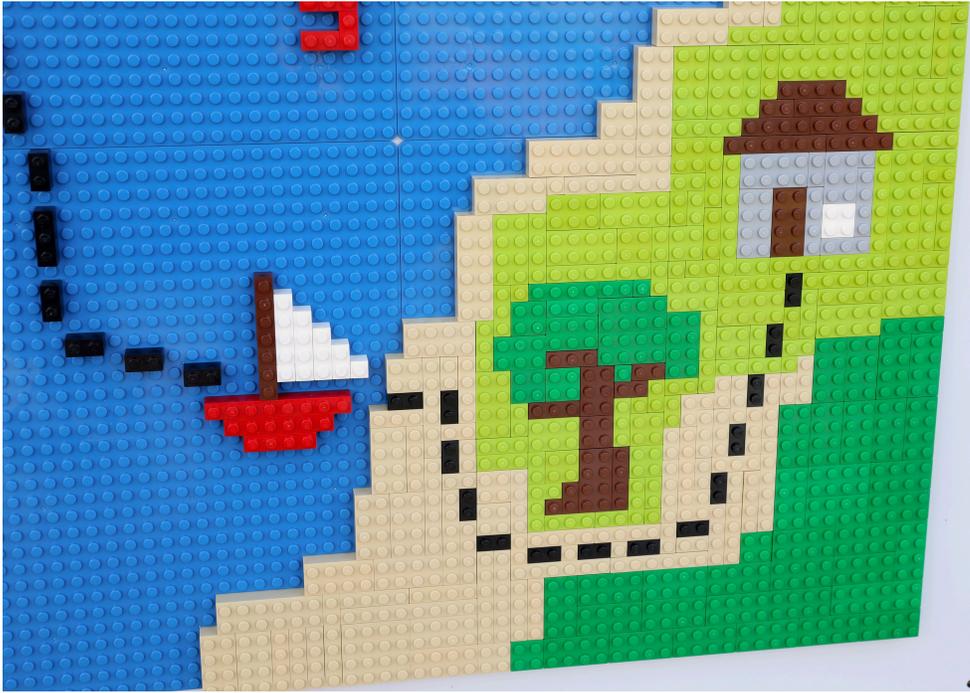

Under the Sea

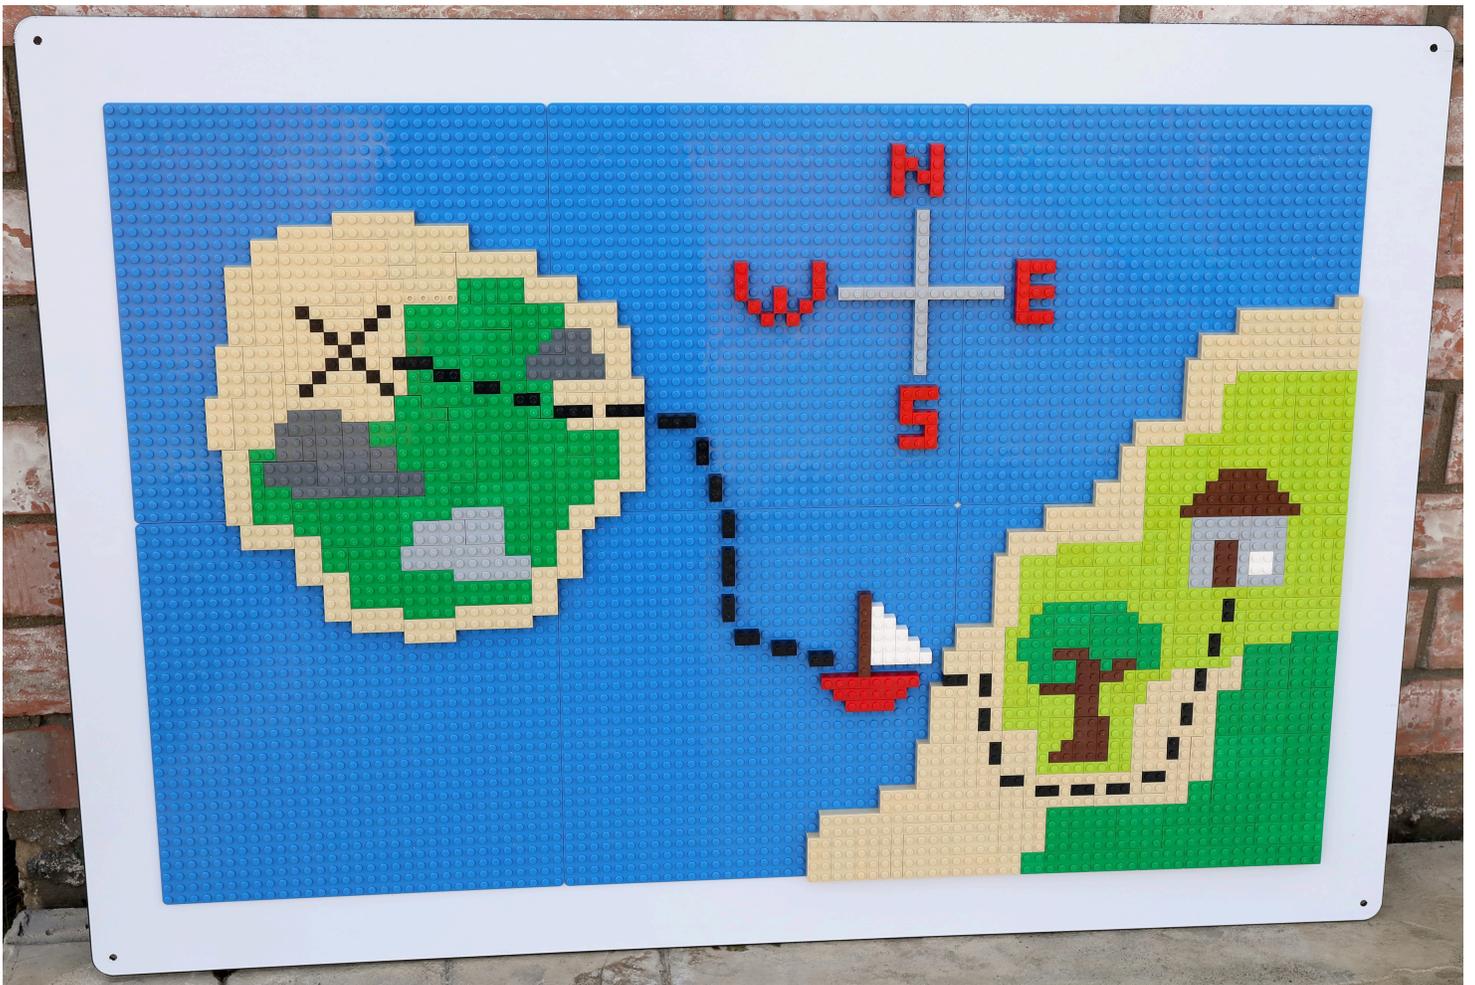

Build an underwater scene with fish, sharks, jellyfish, and plants. You can even make seahorses and starfish! White bricks make great bubbles coming up from the fish.

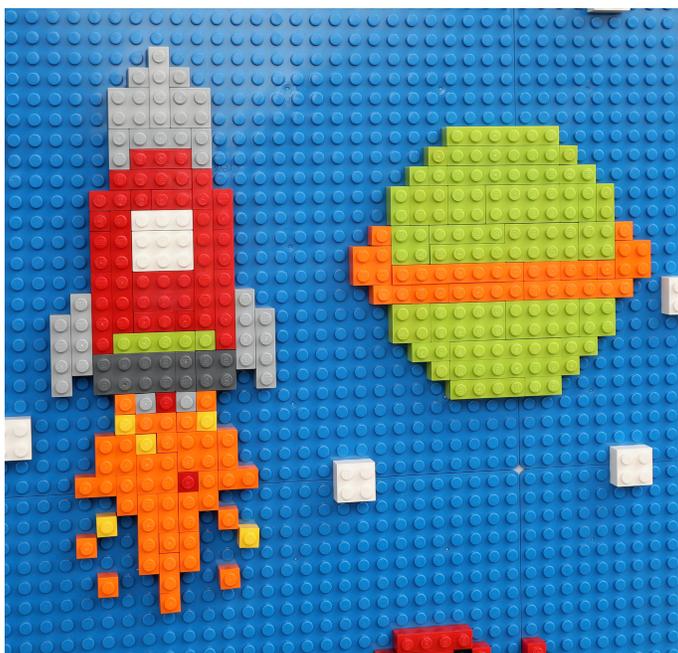

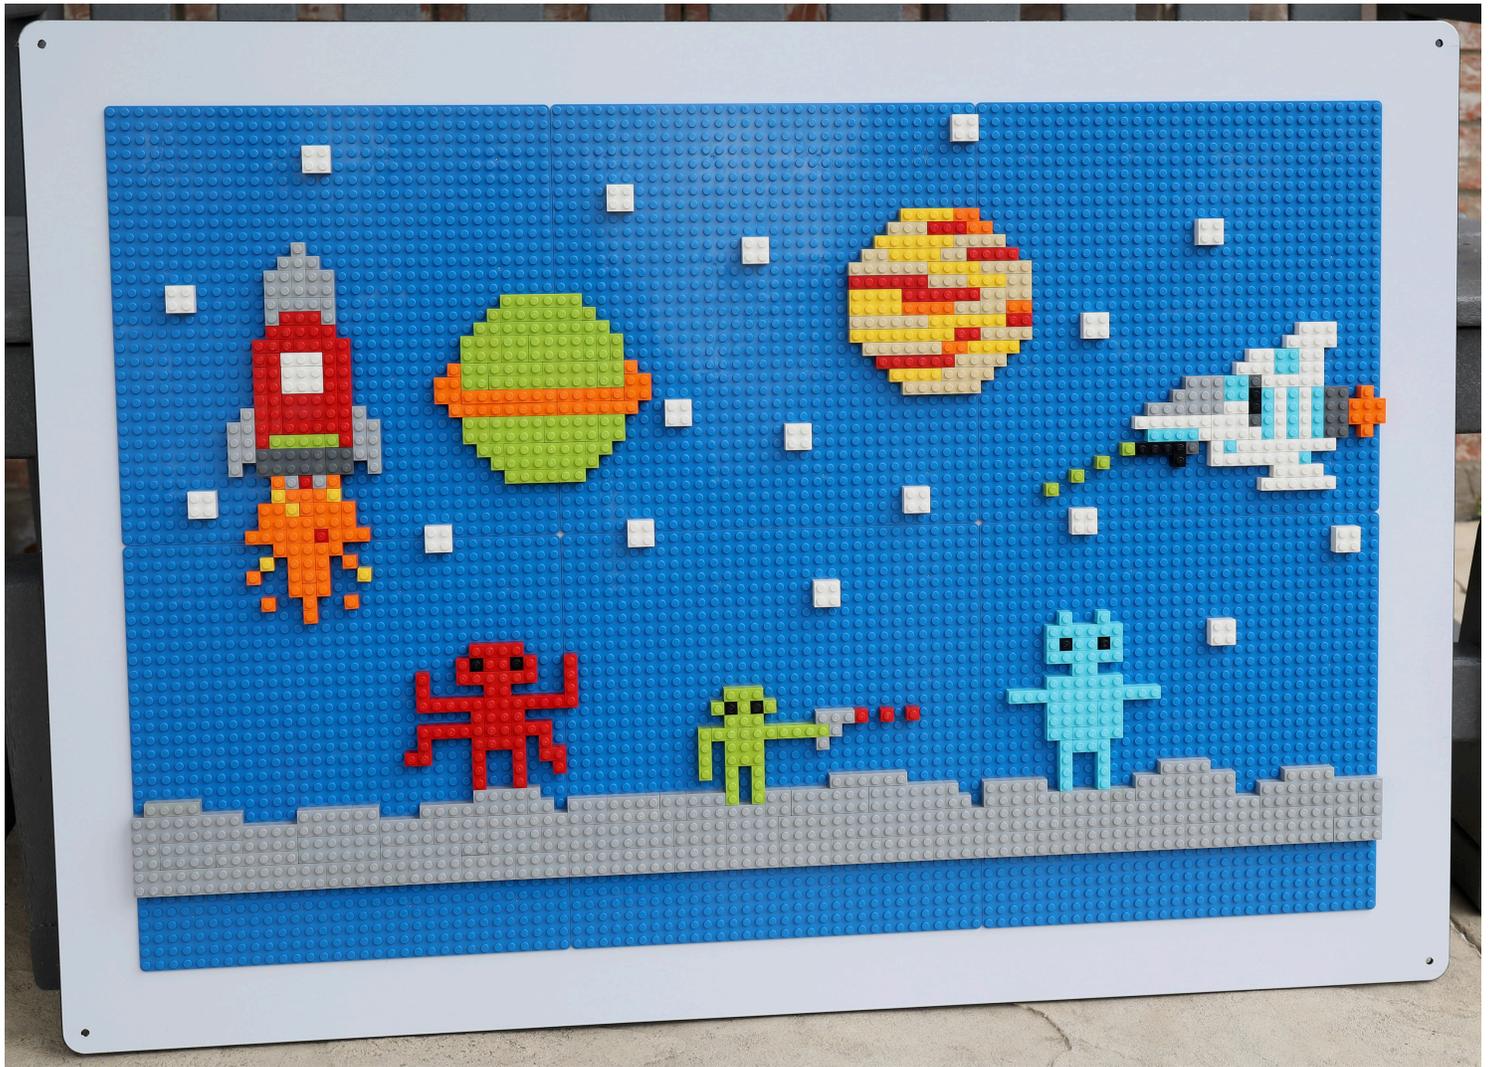

TREASURE MAP

Create your own treasure map with X marks the spot! Use black, gray, or brown bricks to create a path from the starting point to the treasure. Tip: Try adding hazards to your path, such as alligators in the water!

OUTER SPACE ADVENTURE

Build an outer space world! Choose a color for the ground, and then add aliens. Build some colorful planets, and then design spaceships and rockets!
