

# Candy Science Investigations

Whether you have excess Halloween candy to use up, or just want a cool science activity for kids, these candy science investigations are tons of fun! Kids will compare two different kinds of candy by observing their attributes.

## Terms and Conditions of Use

Thank you for visiting Frugal Fun for Boys and Girls! I hope that you find this download to be useful!

This file is for personal, classroom, or public library use only. By using this file, you agree that you will not copy or reproduce the file except for your own personal, non-commercial use.

**You may** print as many copies as you'd like to use in your own classroom, home, or public library.

**You may** post online about a printable (for example, taking a photo of your child or student using it), but you must give proper credit to Frugal Fun for Boys and Girls and must link to the original source for downloading.

**You may not** claim my files as your own or alter them in any way.

**You may not** sell or in any way profit from my electronic files.

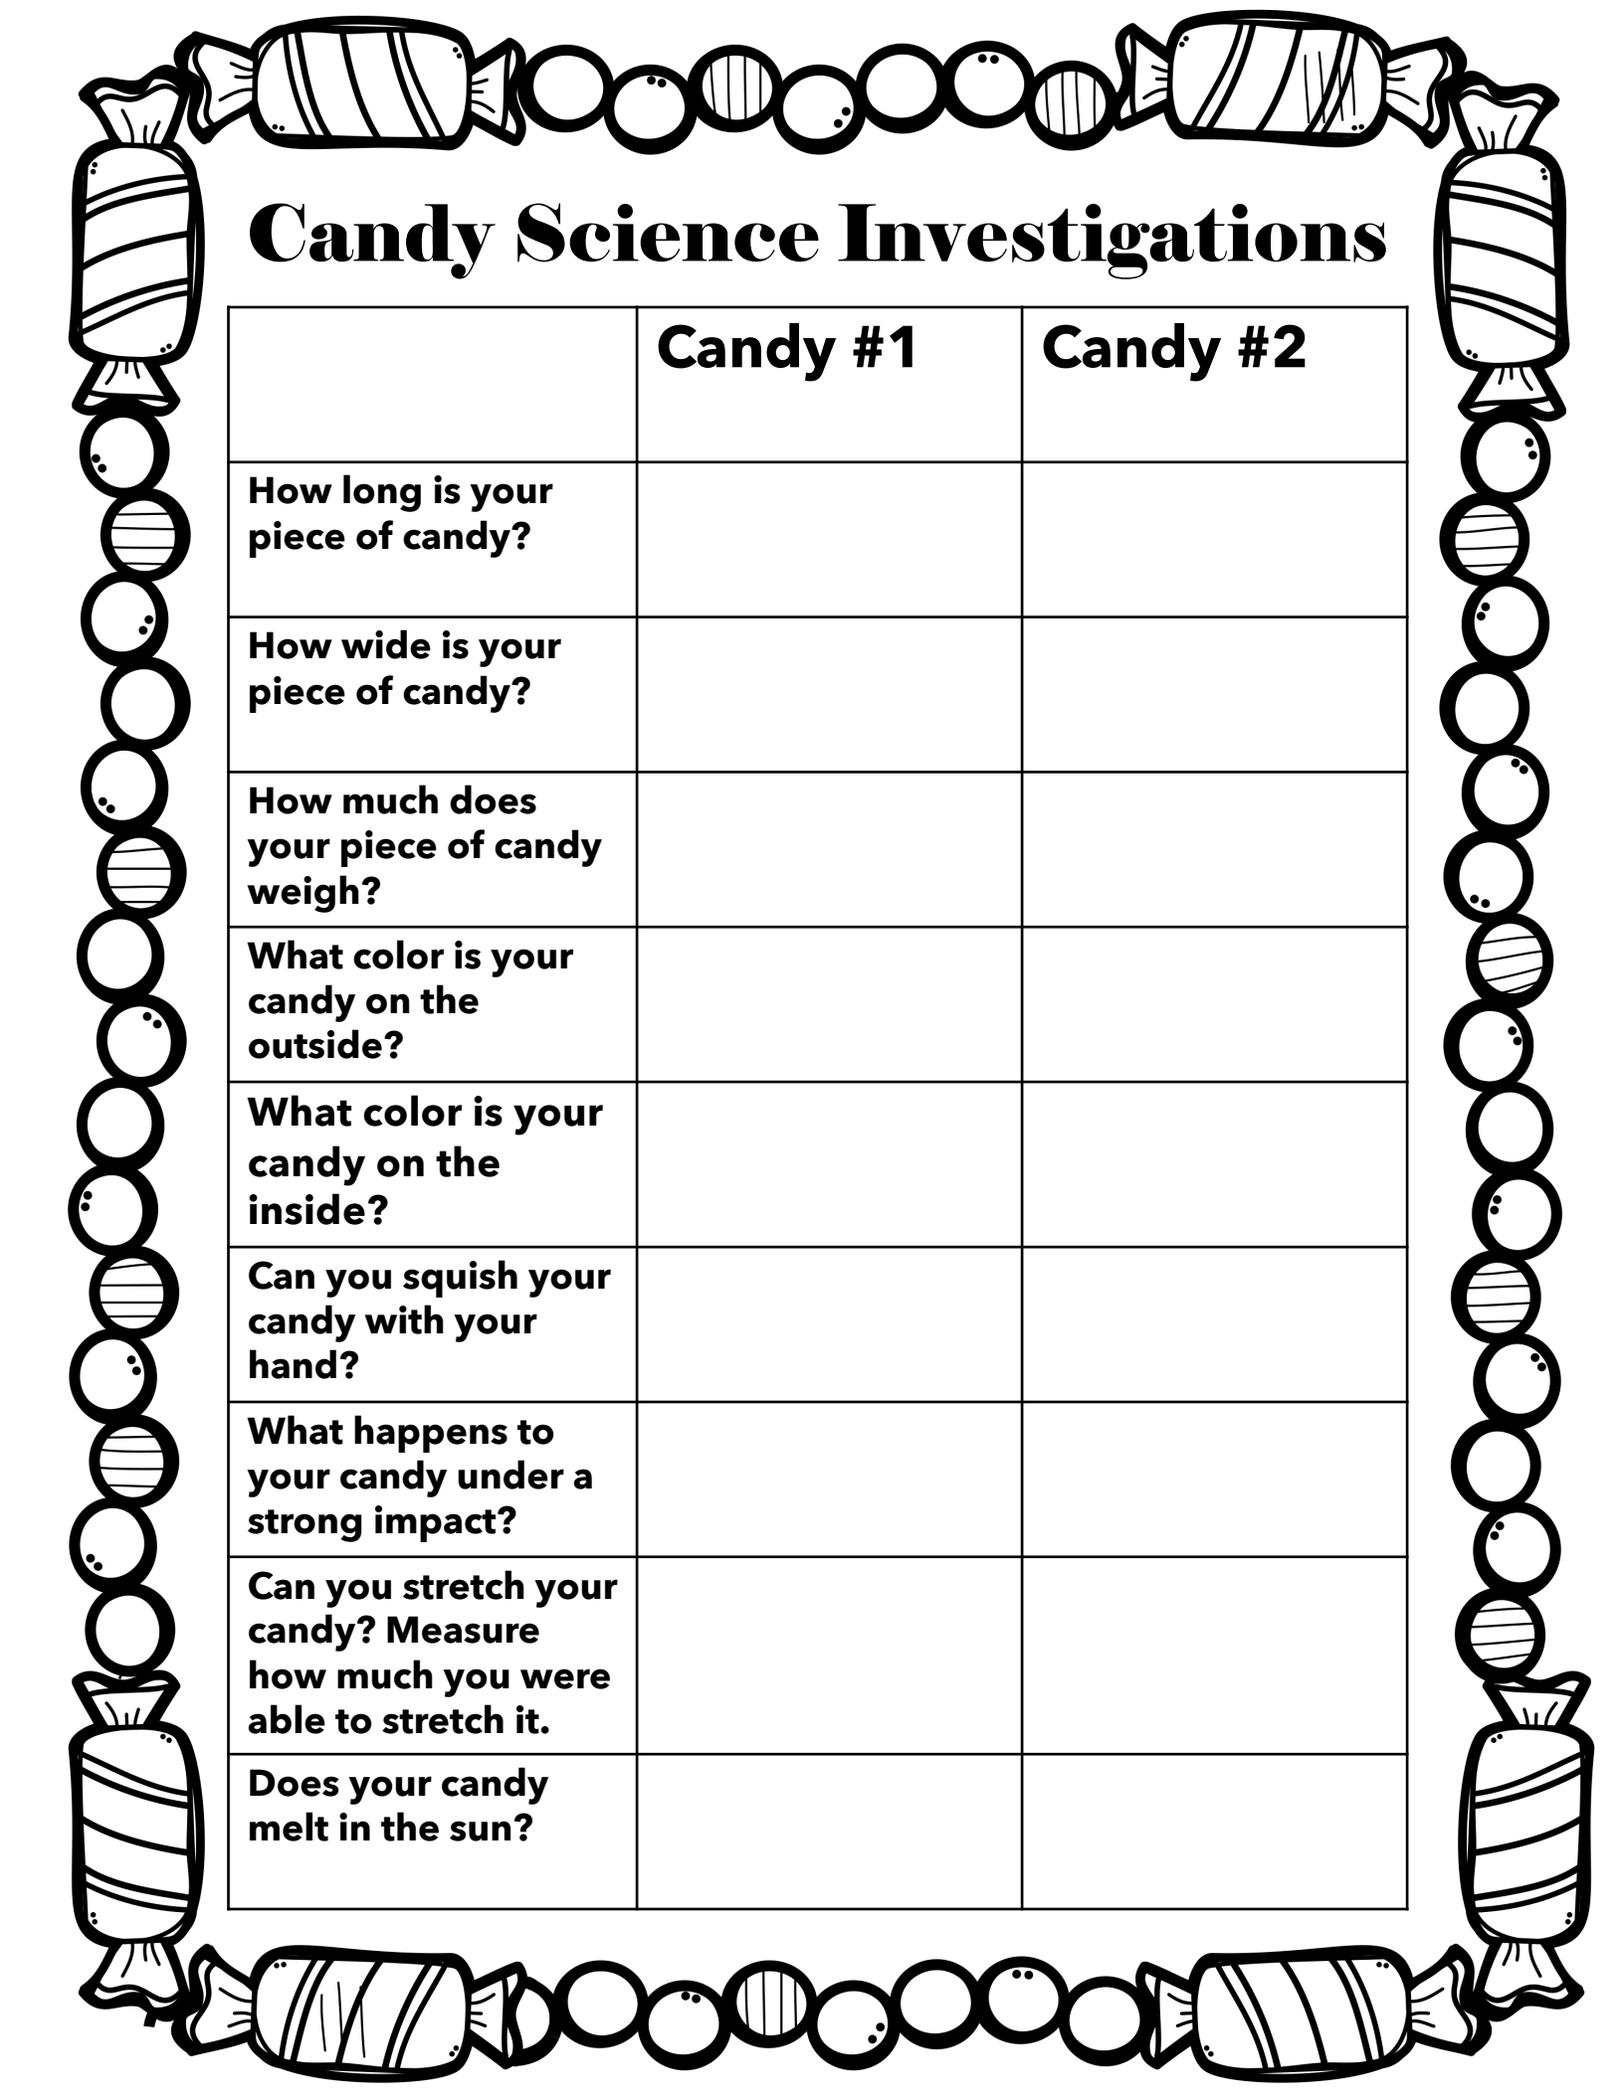

**You may not** store or distribute my files on any other website or another location where others are able to electronically retrieve them. For example, you may not post them to Facebook forums or Dropbox.

**You may not** email my files to others or transmit them in any other fashion.

# Candy Science Investigations

	<b>Candy #1</b>	<b>Candy #2</b>
<b>How long is your piece of candy?</b>		
<b>How wide is your piece of candy?</b>		
<b>How much does your piece of candy weigh?</b>		
<b>What color is your candy on the outside?</b>		
<b>What color is your candy on the inside?</b>		
<b>Can you squish your candy with your hand?</b>		
<b>What happens to your candy under a strong impact?</b>		
<b>Can you stretch your candy? Measure how much you were able to stretch it.</b>		
<b>Does your candy melt in the sun?</b>
